PAXFUL BITCOIN MARKET PLACE GUIDE

Bitcoin trading is one of the ways that one can also earn and gain with bitcoins. The demand for bitcoins to use either for investing or holding to gain value will require you to buy them. There are several online market places you can purchase from such as [Remitano](#) and [Localbitcoin](#) , for this guide I am going to focus on [PAXFUL](#).

I have prepared guides also for both Remitano and Localbitcoin websites which you can download from [here](#) for [Remitano](#) and [here](#) for [Localbitcoin](#)

Paxful is one of the world largest marketplace to buy bitcoins from sellers across the globe, just like the other platforms Paxful has various features such as escrow which protects buyers and even sellers from being scammed.

So what makes Paxful unique?

Paxful offers a wide variety of payment gateways you can use to pay for the bitcoins you are buying. You may be having an amazon gif card and don't want to redeem it for a product, you can use it to get bitcoins.

GIFT CARDS	CASH DEPOSITS	ONLINE TRANSFERS	DEBIT/CREDIT CARDS
<p>Want to buy \$20 of bitcoin fast? Gift cards are accepted. Buy one with cash (save the receipt too) at your local drugstore and exchange it here for instant bitcoin.</p>	<p>No ID or bank account needed, just walk over to your closest branch and deposit cash to the teller. Upload the receipt have bitcoin in less than 1 hour. Awesome price!</p>	<p>Don't want to leave the house? If you have an online wallet account and don't mind uploading ID you can have bitcoin instantly.</p>	<p>Want to use your personal debit/credit card? Upload ID and pay a bit more to the seller and you've got instant bitcoins. Your personal VISA, MasterCard or AmEx debit and credit cards.</p>

You can pay even with a smart card such as Visa and MasterCard. This can be flexible for anyone with a dollar bank account and you want to use them to get bitcoins.

On the website you can filter the sellers by the methods you wish to pay with. You can even trade with guys from abroad when you find they are selling the bitcoins at the market bitcoin price or fairly enough cheaper than Localbitcoin or Remitano.

Buying Bitcoins

To trade on Paxful as either a buyer or a seller you first need to have an account, registration is free and you can sign up from [here](#).

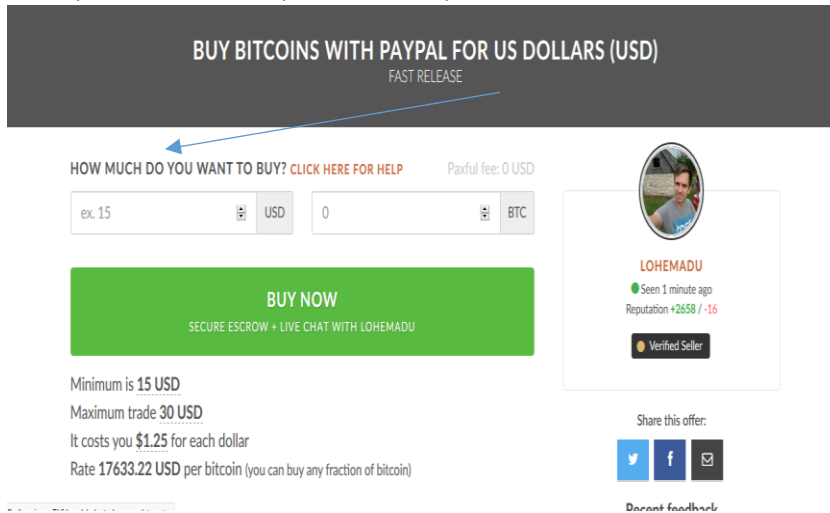

After signing up you need to verify your account by validating the link sent to your email address upon sign up and also via SMS code.

You can then set up your profile with your names and profile picture because most traders will only trade with accounts that have fully updated their details

To buy you just select the buyer you wish to buy from and click on the button **Buy** . You will be directed to the trader profile where you can view his/her past trade history.

Enter the bitcoins to want to buy or the value for the bitcoins in USS that must be within the seller trade limits. Then click on **BUY NOW**.

After that you will be given a few minutes to pay the seller according to his terms of trade , before the expiry of the payment countdown you need to pay and click a button I have **PAID** otherwise the trade will be automatically canceled.

After making the payment and the seller confirms he/she has received your amount, the bitcois will be released to your wallet. It's that simple so if don't have an account with Paxful you can sign up buy bitcoins from people across the globe and pay with a method of your choice.
