

## REMITANO CRYPTO TRADING PLATFORM

There are several trading websites where you can buy and sell cryptocurrencies such as bitcoins. There has been an uptake of the digital currencies and having a stake of this revolutionizing financial currency is a must.

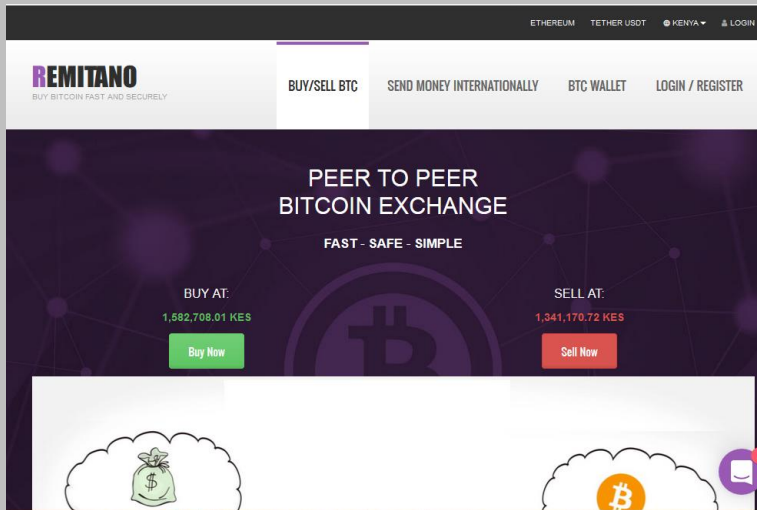

One of the several ways to earn out of Bitcoins and other crypto is **Holding**, you simply buy them at a lower price and sell later when the price goes up. Since the launch of bitcoin it has been on an upward trend, someone who bought it on its debut for less than one \$ is today a millionaire.

So today we are going to have a guided on how to buy Bitcoins from [Remitano](#),

It's a platform just like [LocalBitcoins](#) where you can buy and sell Bitcoins. (You can download the PDF guide for creating a LocalBitcoin Acc from [here](#) )

### About Remitano

Remitano is a bitcoin trading site where you can buy and sell bitcoins from. You can access the site from [here](#)

## What makes it Unique?

- It has escrowed features.  
This means that when you open trade to buy bitcoins from any trader on the site, the bitcoins are held by the escrow and reduced from the trader's wallet, this is a security feature which prevents one from being scammed.
- You can as well buy Ethereum CryptoCurrency  
Ethereum is also a digital currency just like Bitcoin. It's the second most common digital currency after bitcoin by Market capitalization, it also has been on an upward trend in price and one of the preferred mode of raising capital for ICO's
- Fast execution Time  
The execution time to complete a trade on remitano is faster than LocalBitcoin, as a buyer you are given a few minutes to pay the seller as well as the seller upon making payment the seller is also given few minutes to release bitcoins to your wallet.
- Security  
To sign in to your wallet they will always send a link to your mail box so it's not easy for your wallet to be accessed by another person.
- You can buy Bitcoins for another wallet  
Unlike localbitcoin where you buy bitcoins and they are kept within the same wallet, for Remitano you can buy bitcoins and they are sent to your other wallets e.g Blockchain wallet

## How to trade on the platform

First of all you need to create an account on [Remitano](#) , to sign up you just need to enter your email on the sign up section and they will email you the link to sign in.

After sign in you will see different sellers listed with their selling rates.  
On clicking on any seller you can view their details, their trading limits and payment methods as on this screenshot.
